

PRODUCT ORDERS / QUOTES

All of the products that may be purchased on our website display a selling price; however, not all of the products display a shipping rate estimate called a Table Rate. The products can all be loaded to the shopping cart by clicking on either the [“Add to Cart”](#), [“Request Quote”](#), or a combination of the two types of cart loading mechanisms. Note that whenever you click on a “Request Quote” product, or, on “Revised Shipping Rate” Option / Not Ready to Buy on the payment page for products that you “Add to Cart”, no payment will be required, nor are you under any obligation to buy or pay any fee in the future. Simply wait until we contact you via phone or email with the actual shipping rate and total cost within 24 to 48 hours. Should you need additional assistance please do not hesitate to contact us at 844-756-4495 or tents@carpasupply.com

***[“Add to Cart”](#) only products display a “Table Rate” (estimate of shipping cost) once you click on [“View Cart”](#). The actual shipping rate (cost) may be considerably lower or slightly higher than the [“Table Rate”](#) displayed. Click the [“Proceed to Checkout”](#) button below and fill in the required contact information on the next page. It is your choice to either enter your credit card information to complete the purchase at the displayed “Table Rate” for [“Add to Cart”](#) only products you loaded to the cart, or, click on [“Revised Shipping Rate” Option / Not Ready to Buy](#) to request a revised actual shipping rate within 24 to 48 hours for those same products that you loaded to the cart. You must click on [“Place Order”](#) to submit either one of the above options. You should receive a confirmation email of either your order or request for shipping rate revision within 5 to 10 minutes.

***[“Request Quote”](#) only products do not display a “Table Rate” (estimate of shipping cost) when you click on [“View Cart”](#) because the shipping costs for these particular products are more difficult to estimate on-line. When you load [“Request Quote”](#) products only to your cart you will see a statement that says, “no shipping options were found for” your particular address for these products. Therefore, you cannot complete a purchase on [“Request Quote”](#) products until we get back to you with an actual shipping rate. If you load a mix of [“Request Quote”](#) and [“Add to Cart”](#) products to the cart you will see a “Table Rate”; however, that “Table Rate” is only for the products that were [“Add to Cart”](#) products (those you can pay for if you wish when prompted on the payment page). Click the [“Proceed to Checkout”](#) button below and fill in the required contact information on the next page. Then click on either [“Request Quote”](#), [“Place Order”](#), or [“Revised Shipping Rate” Option / Not Ready to Buy](#) at the bottom of the page. After we receive your [“Request Quote”](#) or [“Revised Shipping Rate” Option / Not Ready to Buy](#) requests we will contact you with the actual shipping rate(s) within 24 to 48 hours. You should receive confirmation emails within 5 to 10 minutes of your request(s).
